EDUCATION

Cornell University, College of Engineering, Ithaca, NY — Expected May 2028
Bachelor of Arts, Mechanical Engineering, Aerospace Engineering Minor
GPA: 3.88, Fall 2026

AWARDS AND ACHIEVEMENTS

Bart Conta Prize in Energy and the Environment — Spring 2026

- Awarded to the best work of undergraduate and graduate students in the MAE department for a research or design project dealing with energy and the environment

PROFESSIONAL EXPERIENCE

SRCTec, LLC, Syracuse, New York, *Radar Test Engineering Intern* — Summer 2026

- Calibrated radio frequency (RF) devices to perform voltage/resistivity/continuity tests of radar circuit boards
- Conducted test step analysis of voltage receive checks for the SRC Gryphon™ radar and documented procedures for future use
- Set up data display dashboards for various product lines and created "how tos" for employees in WATS
- Wrote several APIs to link WATS and MaintainX, automating creation of problem reports for test failures

Engineers for a Sustainable World Project Team, Cornell University — Spring 2026-Present

- Researched implementations for hydroponics systems and discussed possible projects with Prof. Mattson
- Brainstormed and designed a hydroponic system integrating machine learning for automated plant growth

RESEARCH EXPERIENCE

Barthelmie Wind Energy Research Lab, Cornell University — Spring 2026-Present

- Developed several DSD algorithms estimating distributions of raindrop sizes with input rainfall rates
- Integrated DSD algorithms into a MATLAB script projecting the lifespans of wind turbines after leading edge erosion from hydrometeoric events

Autonomous Unmanned Systems Laboratory, Syracuse University — Summer 2025

- Captured point cloud data from LIDAR sensor output, primarily using the Velodyne VLP-16
- Developed algorithms for offline relative pose estimation between recorded frames using SVD, EVD, D-SVD, ICP, VPE, and other associated methodologies
- Presented weekly research progress, including methodology and data insights, to the lab group

CAMPUS INVOLVEMENT

Global Impact at Cornell, Cornell University, *Subteam Member, Let's Share the Sun* — January 2026-Present

SKILLS

Programs: MATLAB, Python, Java, HTML/CSS, Excel — **Languages:** Spanish (intermediate)

ADDITIONAL EXPERIENCE

USSF Referee, Western New York, *Soccer Referee* — Mar 2020 - Present
Jewish Community Center of Syracuse, Syracuse, New York, *Counselor* — Nov 2023 - Aug 2024
